WISCONSIN	No law	
WYOMING	No law	

**3D = 3D mammography (tomosynthesis); Diag = diagnostic; MBI = molecular breast imaging; MRI = contrast-enhanced breast magnetic resonance imaging;**

**NCCN = National Comprehensive Cancer Network; US = ultrasonography**

<sup>a</sup> 3D screening benefit guaranteed at age 40 or above, if younger under certain circumstances.

<sup>b</sup> Out-of-state, federal, and employer insurance plans set up as "self funded" (check with your benefit administrator) do not, generally, have to comply with state insurance laws. Check with your insurance company regarding details of your coverage.

<sup>c</sup> Benefits must also include screening MRI of an entire breast or breasts in accordance with guidelines established by the American Cancer Society for an insured aged 35+ or younger if believed to be at increased risk (1/1/2023).

<sup>d</sup> Subject to individual policy applicability date, issuance or renewal date

DenseBreast-info.org endeavors to provide an informed interpretation of the state laws as they relate to breast imaging insurance coverage; however, state legislative language varies and can be complex or vague. These codes may not be the most recent version; a state may have more current, amended or accurate information. No representations or warranties of any kind are made, express or implied, about the completeness, accuracy or reliability of the information or interpretation provided. Questions about a state law should be directed to that state's legislature.
